Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: Zhou et al. (WO 00/03692) teach an aerosol antimicrobial composition which requires a propellant. Instant claims exclude the propellant required by Zhou et al. Applicants' arguments regarding the removal of propellant from the container in Zhou et al., the container no longer requiring pressurization in a metal container, and consequently no longer requiring a corrosion inhibitor, i.e., alkanolamine (which is a required component of the instant composition) were found persuasive.

A further prior art search did not disclose a reference that teaches a process of utilizing a disinfectant composition that consists of (a) an amine and/or quaternary ammonium salt; (b) at least one alkanolamine; and (c) water as a solvent.

Therefore, the claimed invention is novel and unobvious over the prior art of record.

Comments

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Claims **1-4, 7-15, 21, 23, 25, 27, 29 and 34-35** are allowed.
